## Directors Note:

We've all had the moment where we're laying in bed wondering how something would've played out differently. This play plays out every scenario that could've, should've, and would've happened. It's such a fun play to tackle for both the director and actors. It gives a chance to try and try again. We wanted to play with the idea of space and multiverses while also thinking about what time actually is. Is the future set in stone, or are their options? It's a mix of philosophy and space that is an absolute blast to work on. We hope you enjoy the show as much as we enjoyed making it.
